### EDUCATION

**Bs Software Engineering,** 2019 – 2023 | Lahore, Pakistan  
COMSATS University Islamabad, Sahiwal Campus

### EXPERIENCE

**Manafa Technologies,** Software Engineer 05/2025 – Present | Lahore, Pakistan  
Worked on developing and maintaining fintech web platforms using Nuxt.js and Node, focusing on seamless API integration, responsive UI, and scalable backend services for SME lending and investment solutions. Collaborated with cross functional teams to enhance performance and deliver secure, high quality financial applications.

**Voltro by Falkenherz,** Software Engineer 07/2023 – 05/2025 | Lahore, Pakistan  
• Developed a Fleet Asset Management System (FAMS) to streamline vehicle tracking and operational workflows.  
• Engineered scalable APIs and database architectures using Vue.js, React.js, and Node.js for efficient data handling and system reliability.

**kaswa.ai,** Associate Software Engineer 01/2023 – 06/2023 | Sahiwal, Pakistan  
• Developed and maintained full stack web applications using MongoDB, Express.js, React.js, and Node.js, focusing on building scalable APIs and responsive user interfaces for improved application performance.

**HCC Lab, Lahore,** JavaScript Developer Intern 08/2022 – 09/2022 | Lahore, Pakistan  
• Contributed to frontend development using JavaScript, building and optimizing interactive UI components. Assisted in debugging, code reviews, and improving application performance under senior developer guidance.

### PROJECTS

**Fleet Application Management,** <https://v5.fams.cc>  
• Developed a Fleet Asset Management System (FAMS) using Vue 3, Node.js, PostgreSQL, Leaflet, and Redis for real time vehicle tracking.  
• Integrated interactive maps and backend services to deliver live fleet monitoring and data synchronization.  
• Optimized performance and scalability through Redis caching and efficient data handling.

**JetClass,** <https://www.jetclass.com/>  
• Contributed to the development of the JetClass platform, enabling seamless private jet charter bookings through a user-friendly interface.  
• Integrated real-time flight options and optimized performance for users booking private jets, helicopters, and more.

**Sales CRM**  
• Developed and maintained a Sales CRM to streamline lead management, customer relationships, and sales processes.  
• Implemented features such as sales tracking, reporting, and automation to improve team productivity and client engagement.

### PROGRAMMING SKILLS

HTML, CSS | JavaScript | React | Next.js | Vue.js (Vue 3) | Node.js | Express.js | Knex.js |  
PostgreSQL | MYSQL | MongoDB | MEVN Stack Development | MERN stack development | RESTful APIs
